EMPLOYMENT INSIGHTS

2023/08

The CareerJunction Employment Insights Report provides an analysis of the supply and demand trends in the online job market, to represent online labour dynamics in South Africa.

The analysis and findings serve as a foundation for potential HR solutions & strategies, enabling businesses and recruitment agencies to focus on relevant occupations when developing their talent attraction and retention strategies.

EMPLOYMENT TRENDS

In **July 2023** recruitment activity decreased by 9%. Year-on-year, hiring activity is down by 1%, compared to July 2022. Most sectors were affected by a noticeable decline in hiring activity during July. Major decreases in hiring activity were evident for **Business & Management** jobs, **Finance** jobs, **IT** jobs as well as **Admin, Office & Support** jobs. As this decrease happened in July, it is not visible in the three-month trend below.

[Recruiters, list your jobs here >](#)

Monthly job postings
Recruitment Activity over the past 13 months

▲ Growing hiring activity in the past three months

When comparing hiring activity over the last three months (May, June, July 2023) with the previous three months (February, March, April 2023), there is a noticeable uptake in recruitment for Building & Construction and Finance professionals (despite the recent downturn during July).

▼ Declining hiring activity in the past three months

There has been no significant decline in hiring activity for any sector over a running quarter-on-quarter basis.

The illustrations can be read as follows:

During the last three months, hiring activity grew/declined by the percentage shown in the coloured circles. Particularly, roles in the sub-sectors shown surrounding the centre circle have been advertised more/less frequently.

SPOTLIGHT ON WOMEN IN THE WORKPLACE

South Africa observes Women’s Month in August every year. The 2023 theme for Women’s Month, ‘Accelerating Socio-Economic Opportunities for Women’s Empowerment’, emphasised the need for more socio-economic programmes and activities across different sectors to create additional employment opportunities for women.

The labour market in South Africa remains more advantageous to men than women, revealing significant gender gaps in employment. According to **Stats SA’s Quarterly Labour Force Survey for Q2:2023**, the labour force participation rate for

women stood at 54.3% compared with 64.9% for men, a gap of 10.6 percentage points. Only 54.3% of women of working age in South Africa participate in the labour force either as employed or looking for work. However, the female labour force participation rate has seen an increase over 10 years by 4 percentage points from 50.3% in Q2:2013 to 54.3% in Q2:2023.

Work is the most effective economic empowerment strategy for women and recruiters have an important role to play in improving gender equality across all job sectors to create a positive impact on society.

CareerJunction’s latest research reveals occupations that represent the highest and lowest proportion of women in the workplace.

Currently, make-up artists and skin / nail / body consultants have the highest proportion of women, while truck drivers, carpenters / cabinet makers and taxi drivers / chauffeurs have the lowest proportion of women.

Occupations with the highest proportion of women

Make-up Artist	91%
Skin / Nail / Body treatments Consultant	90%

Bus driver	8%
Industrial Machinery Installation / Repair	8%

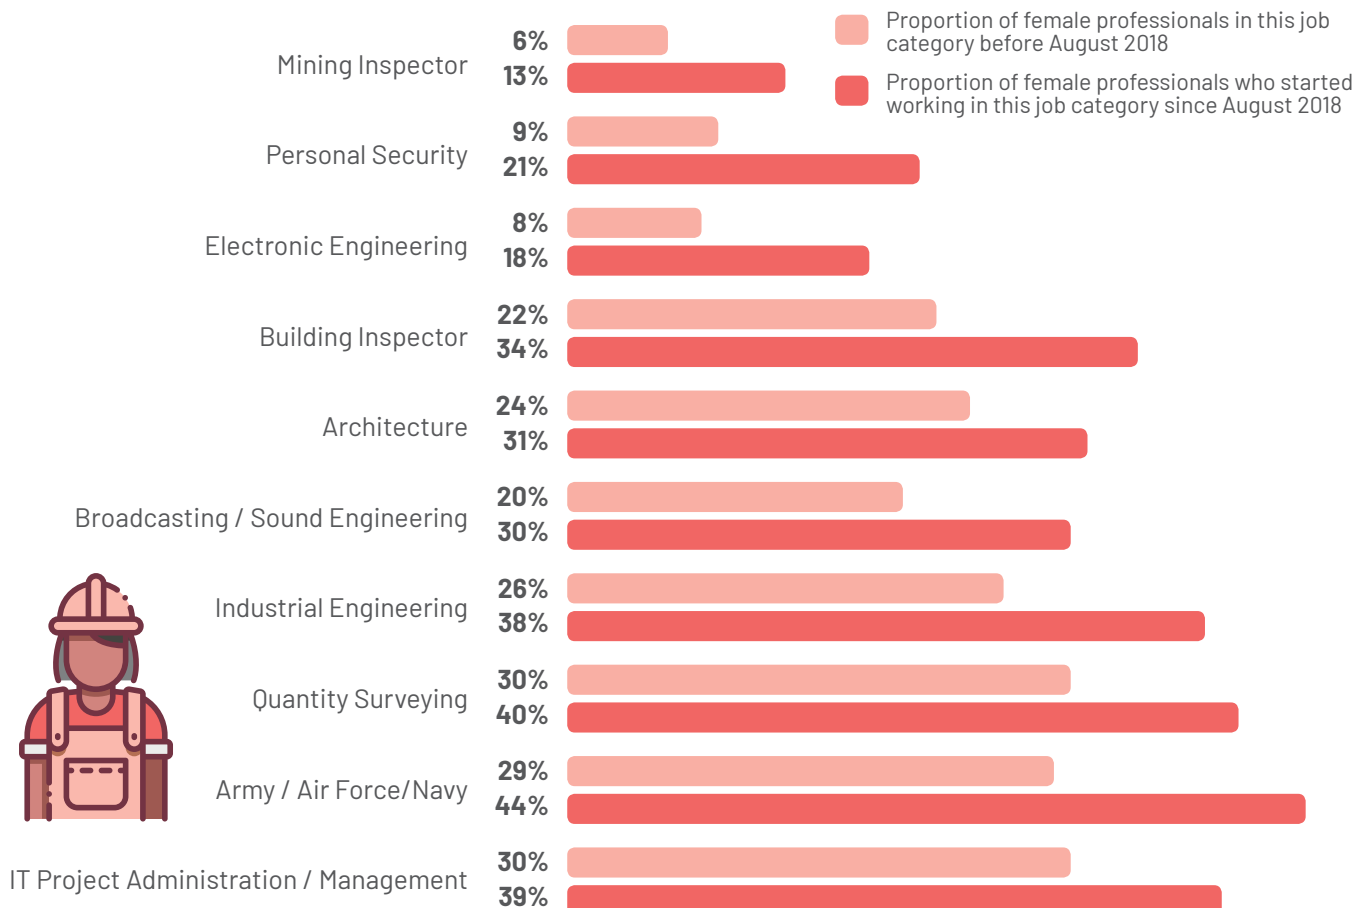

SPOTLIGHT ON WOMEN IN THE WORKPLACE

CareerJunction's findings show 10 historically male dominated occupations that have seen an influx of female professionals over the past five years. While it's encouraging to see this, it is important to note that across all these occupations, female professionals have still not reached the 50% gender parity mark.

Male dominated occupations with significant **increases of female professionals** over the last five years

SPOTLIGHT ON WOMEN IN THE WORKPLACE

RECRUITMENT PER LOCATION

Gauteng remains the largest employment hub in South Africa (54%).

The North West, Limpopo, Free State and Northern Cape provinces have the least employment opportunities in the country (1%).

International job offers remain static at 4%.

REGIONAL DEMAND BY PROFESSION

MANUFACTURING & ASSEMBLY

Gauteng's hiring activity for staff in this sector has increased significantly from 2021 to 2022, however since 2022 hiring activity has decreased slightly year-on-year.

In the Western Cape, demand for Manufacturing & Assembly staff went up from 2021 to 2022. However, since 2022 hiring activity has decreased significantly and is 23% lower year-on-year.

KwaZulu-Natal has seen a consistent increase in demand for Manufacturing & Assembly staff over that last three years. Between 2021 and 2022 demand increased by 10%, and between 2022 and 2023 it increased by a further 3%.

DESIGN, MEDIA & ARTS

From 2021 to 2022 there was significant growth in demand for Design, Media & Arts professionals in Gauteng, the Western Cape and KwaZulu-Natal.

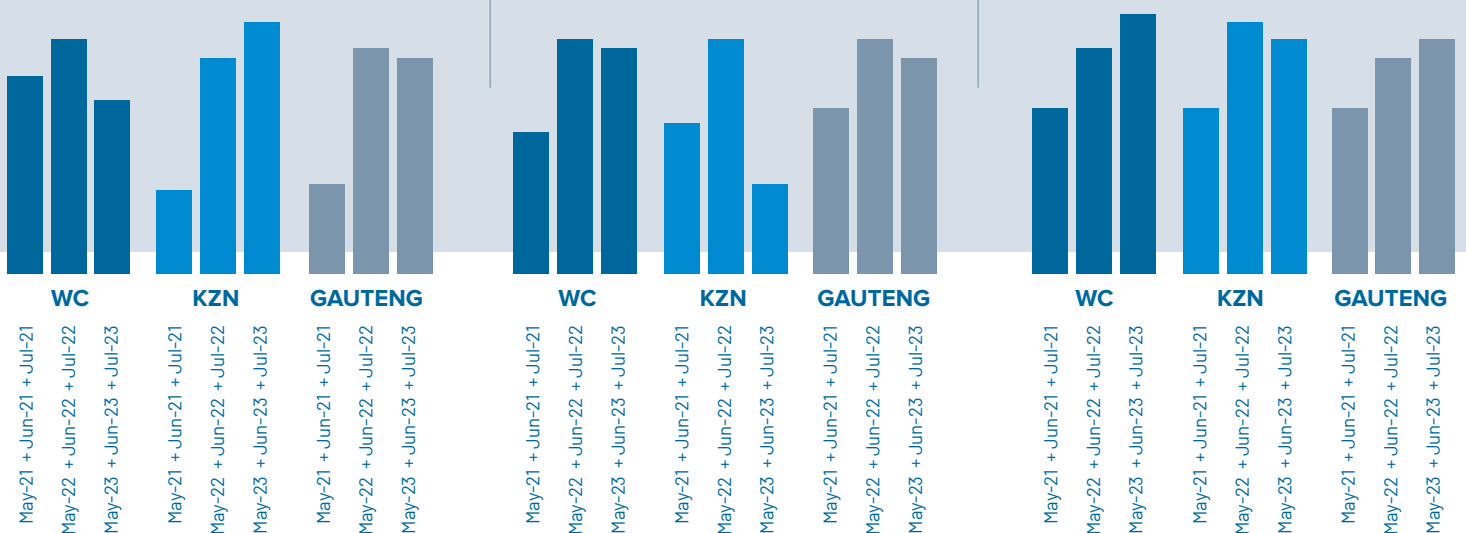

Since 2022, however, hiring activity has decreased across all three provinces. KwaZulu-Natal has seen a year-on-year decrease of 14%, Gauteng has seen a year-on-year decrease of 11%, and the Western Cape has seen a year-on-year decrease of 3%.

FINANCE

Demand went up significantly for Finance professionals from 2021 to 2022 in Gauteng, the Western Cape and KwaZulu-Natal.

Since 2022, hiring activity has decreased slightly year-on-year in KwaZulu-Natal. In Gauteng and the Western Cape, however, demand has increased further in 2023. Gauteng has seen a year-on-year increase of 8%, while the Western Cape has seen a year-on-year increase of 17% for professionals in this sector.

Please note that these graphs represent the change in vacancies over time. However, the volumes of vacancies are not accurately represented.
